IDENTIFIERS *Vocational Education Amendments 1968 Part D

ABSTRACT

This publication lists the exemplary vocational education projects supported in each state during fiscal year 1977 by grants and contracts funded under Section 142(d) of Part D of the Vocational Education Amendments of 1968. The arrangement is alphabetical by state, giving the project titles, the names of grantees or contractors conducting the project, and the amount of funding obligated for the state as a whole and each project separately. (Obligated funds include funds appropriated in the previous fiscal year which have been carried over.) No information is provided for the District of Columbia, Massachusetts, Rhode Island, Tennessee, and the Virgin Islands. (EC)

INTRODUCTION

Section 142(d) of Part D of the Vocational Education Amendments of 1968 provides Federal funding for State-administered Exemplary Projects in Vocational Education. These Federal funds can be used by each State for making grants to or contracts with local educational agencies, colleges and universities, and other public and private agencies and organizations for the development, establishment, and operation of exemplary and innovative occupational education programs or projects designed to serve as models for use in vocational education programs.

The funds are allocated to the States on the basis of a complex formula prescribed in Public Law 90-576. The total funding appropriated for State use under Section 142(d) of Part D amounted to $6.5 million in Fiscal Year 1970, and $8 million in each succeeding fiscal year.

The purpose of this publication is to provide a listing of the projects supported in each State through grants and contracts funded by the States under Section 142(d) of Part D of the Vocational Education Amendments of 1968. The listing, which is arranged alphabetically by States, shows the title of each project, the name of the grantee or contractor conducting the project, and the amount of Section 142(d) funding obligated for the project. For any given State, the total amount of funds obligated in a particular fiscal year may or may not be equal to the State's allotment for that fiscal year. The reason for such differences between funds allotted and funds obligated is that Public Law 90-576 permits a State to obligate Section 142(d) funds during the fiscal year in which the funds are appropriated and during the succeeding fiscal year. Thus, a State could carry Fiscal Year 1971 funds over and obligate them during Fiscal Year 1972, and then carry Fiscal Year 1972 funds over and obligate them is Fiscal Year 1973, etc.

This listing of State-administered Exemplary Projects was compiled on the basis of information supplied to the U.S. Office of Education by each State. Persons wishing to secure in-depth information about a particular project should correspond with the State Director of Vocational Education in the State concerned.

This publication has been prepared by Larry Braaten, Chief, Demonstration Branch, and Annette Miller, Education Technician, Demonstration Branch of the Division of Research and Demonstration, Bureau of Occupational and Adult Education.

Howard F. Hjelm
Director, Division of
Research and Demonstration

August 1978

STATE: ALABAMA

Total Funds Obligated in Fiscal Year 1977: $144,697
